-Freelancer

Through several training courses on the Internet, I was able to master graphic design and frontend development, which allowed me to work with more than 130 customers on websites such as: Upwork, Khamsat, and Freelancer.

#### FULL-STACK WEB DEVELOPER (3 MONTHS)

2021

-LIFE MAKERS ACADEMY, Oujda

- In this internship, I was able to exercise my skills in the field of web development with a team of Developers by creating an E-learning platform with 4 technologies which are: MongoDB, Expressjs, Reactjs, Nodejs.

#### SOFTWARE DEVELOPER NODEJS | REACTJS (10 MONTHS) 2021-2022

-TERABYTE SOFTWARE, Kenitra.

This was a great experience especially to be surrounded and work with brilliant people and to be able to work in some of the largest projects. during this experience i was able to :

- Deliver Bug-Free features for an international existing project.
- Improve and Update already existing functionalities and pipeline integration.
- Improve quality of the existing project.  
(getting rid of code smells, refactoring complex code to simpler and Unit-Testing every line.)
- Manage the board for the project in Azure Devops.
- Deliver new project from scratch for a MidSize company.
- Contribute and provide help in my team-mates projects.
